REVIEW BY AN EMINENT DOCTOR IN INDIA

Dr. Arravelli Venkateshwar Rao

M.D Physician

R. G. Kar Medical College and Hospital Kolkata, West Bengal

I have spent 6 years at Zaporozhye city and whatever I am today is because of ZSMU where I have completed my MBBS degree. I cleared MCI screening test on first attempt and I got 251 out of 300

Basically the university is located at Zaporizhia city, which is basically known for its hydroelectric power plant. The city is very safe and peaceful for living and around 1 million people are currently staying.

MBBS at ZSMU is recognized by World Health Organization (WHO), International Medical Educational Directory (IMED) and Medical Council of India (MCI). The duration of MBBS at ZSMU is six years. The language of instruction for all foreign students is English. ZSMU is one of the best universities in Ukraine for its world class education, mode of teaching, MCI passing score, great practical exposure, better quality foods, safety and security arrangement to the students. All the faculties are very co-operative and helpful and they are like a family in the university. When it comes to the education and discipline the university is very strict and the ZSMU has been able to deliver 100% passing rate in every year.

ZSMU Batch (2008-2014)

PG NEET SCORE - 239 (All India Rank)

Doctor with the official representative of ZSMU, Shaswata Mitra
